

## 'CAPITOL ROUTE' TO BE 'HARDENED'

Guthrey Calls Association  
to Meet in Topeka on  
October 20

The making of plans for hard surfacing that part of the Capital route that is as yet dirt road will constitute the greater part of the program for the fifth annual session of the Capital Route association October 20 when it is held in Topeka, Kan. Call for the convention was issued yesterday by the president, E. Bee Guthrey.

A year ago the Capital route was a strip of road between Topeka and Independence. A group of members of the association conceived the idea of extending the road south to Tulsa and north to Omaha. With the election of Guthrey as president and Dr. A. J. Collins of Subotha, Kan., as secretary, the association went into action on the proposition with the result that the Capital route today is a 427-mile stretch of road between Tulsa and Omaha, nearly all of it hard surfaced and on a nearly a straight line that its travelers experience little lost motion because of detours or long turns.

From Tulsa to the Kansas line the road is concrete a good part of the way. On as far as Independence it is being hard-surfaced with gravel under federal aid specifications and from Independence to Yates Center federal aid projects are being completed and the new hard-surfaced road is in use. The highway is a dirt road from Yates Center north through Burlington, Shawnee county is financing the construction of a concrete road entirely across the county and this work is 60 per cent completed.

The Capital route from Topeka is one of the best dirt roads in the country, thoroughly graded and under maintenance by the patrol system. Completion of this work has proved the Capital route to be one of the most completely organized road associations of its kind in the opinion of road men.

Tulsa county live stock men intend to market their products co-operatively, insuring better market with less loss to themselves than they believe they could otherwise have. ## MUST PUSH ALL CASES

Policeman Chided for Making Arrests and Failing to Prosecute.

DALLAS, Texas, Sept. 25.—R. B. Allen, prosecutor in the local police court, delivered a severe lecture to police officers condemning them for making arrests and failing to prosecute against persons whom they held in the city jail or who gave appearance bonds without knowing what they were charged with. The practice of holding people—especially women—on suspicion, the prosecutor said, is very bad.

## Common Sense About Eczema and Eruptions!

Here's Something About S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it. When the cause of skin troubles and eruptions is in the blood, it isn't com-

mon sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, scabies, rashes, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.
